ABOUT ME

Front end developer with 4 years experience in professional settings working with multiple teams to deliver the best web experience possible. Keen eye for UI/UX improvements from the beginning design phase to build. Excellent proficiency in proof-reading and editing before content is published. With additional multiple years of experience in customer facing roles and excellent intrapersonal skills, I make a great team player and work efficiently under pressure across multiple teams in any and all settings.

WORK EXPERIENCES

FRONT END DEVELOPER

The North Face | 2020-2022

- Create reusable and scalable Vue components based on design from design team.
- Work with the design and copy team to elevate experiences based on stakeholders brief with our codebase.
- Efficiently work together with developer team using scrumban methodology.
- Refactor older and current components to be more efficient.
- Mentor new developers to get them up to date on our current build and process.
- Communicate clearly with team leads about progress/problems with the current work cycle.

DEVELOPER

Guest Research, Inc. | 2018-2020

- Created responsive UIs by refactoring HTML email code given by clients to make responsive and compatible in all email clients
- Developed responsive and creative email designs based on specific clients needs
- Proofread email content proficiently before turning sources live
- Brought cross-browser consistency to UI components for our online surveys by using HTML and CSS
- Brainstormed and proposed ideas to completely redesign our Management Reporting System website

PARALEGAL

Law Offices of Andrea Black, Esq. | 2014-2018

- Transcribed, proof-read and edited extensive legal documents in a timely manner.
- Trusted to oversee filing and maintenance of all client documents including handling confidential information.
- Answered phone calls and replied to emails from clients and professionals promptly.
